MEMORANDUM

TO: Incoming Students

FROM: Craig Lehmann, Ph.D
Dean

DATE: May 2013

SUBJECT: Health History and Physical Examination Reports

Health history and physical examination report forms are available on line at www.stonybrook.edu/hcstudents/new_students.shtml. Please remember to click on the SHTM Health Form for Clinical Programs. Documentation of health history and physical examination status and compliance prior to enrollment in classes is REQUIRED. ALL information listed on the forms must be provided. This is important not only for adherence to University regulations, but especially for our compliance with New York State health and hospital codes; every student who comes into direct contact with patients as part of the academic experience must comply with these codes. Your course enrollment * also depends on compliance with the health policy.

The health history and physical examination report forms must be completed by a licensed physician (M.D. or D.O.), registered physician assistant or registered nurse practitioner within six months prior to your entry into the school. Please note that titers and proof of immunity for measles, mumps, rubella, and varicella are required for all School of Health Technology and Management students in clinical programs. In order to comply with this policy, you must include a copy of the laboratory results.

A note certifying completion of the physical examination is not acceptable; the full examination report on the form provided is required.

If you have not submitted the complete student health history and physical examination report forms yet, they should be mailed to the Student Health Service, Infirmary Building, Stony Brook University, New York 11794-3191. Their receipt will be recorded, and they will be reviewed for compliance.

I look forward to seeing you at orientation on Monday, June 24, 2013.

*Please go to SOLAR (www.stonybrook.edu/solarsystem) and complete the Meningitis Form, and all other notices posted on your account. This is required before you will be able to enroll in classes.
