**HAT 210 Introduction to Respiratory Care**

This one-credit introductory course explores current therapeutic and diagnostic concepts used to treat heart, lung and sleep disorders and offers an observation clinical experience to see the work done by respiratory therapists. The course is offered from 1 to 2 pm on Thursdays in the Respiratory Care Program’s Teaching Laboratories (HSC Level 2, Room 464) during the both the Fall and Spring semesters. The class number for Spring 2015 is 53366. Academic advisement will be provided for students seeking admission to this program.

Don’t forget to ask about our freshman declared major option! Freshmen can gain automatic entry into the program by declaring respiratory care as your major.

We also offer a Polysomnography Specialty Option for students interested in getting advanced education in sleep technology.

The Stony Brook University Respiratory Care Program and Polysomnography Specialty Option are accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com) 1248 Harwood Road, Bedford, TX, 76021-4244, (817)-283-2835. The Respiratory Care Program is also approved by the New York State Department of Education.
