STUDENT WELCOME

This student manual is designed to provide you with useful information about the program you have been accepted into. You can conveniently access this manual on the program’s website (http://healthtechnology.stonybrookmedicine.edu/programs/rc/studentonly) where you can also view the current class schedule and the School of Health Technology and Management Student Orientation Handbook. The School of Health Technology and Management (SHTM) Student Orientation Handbook lists information important to all students within the SHTM such as: academic policies and procedures, rules and regulations, and miscellaneous information that you need to know, please click here. Please review all these materials and utilize them as a reference source. Feel free to contact me if you have any additional questions. I look forward to helping you complete your education and enabling you to provide outstanding health care for your patients.

Sincerely,

James A. Ganetis, MS, RRT-NPS
Chair, Division of Diagnostic and Therapeutic Sciences
Program Director, Respiratory Care and Polysomnography Specialty Option

Patricia Bley
MISSION STATEMENT:

The mission of the Stony Brook University Respiratory Care Program is to offer the highest quality medical education and clinical skills in a learning environment that fosters critical thinking, encourages professional leadership, inspires research, and instills a strong appreciation of ethical values and human diversity.

This multifaceted program emphasizes critical care, acute care, neonatal/pediatrics, cardiac care, home care, polysomnography, and pulmonary diagnostics. Utilizing the standards established by the Commission on Accreditation for Respiratory Care (CoARC), the established curriculum provides students with the opportunity to develop the knowledge, skills, and attitudes necessary to be outstanding patient care providers and encourages them to improve the overall health throughout their surrounding communities.

For students who enter the Polysomnography Specialty Option (PSO), our goal is to prepare practitioners with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of polysomnographic technology practice as performed by sleep disorders specialists.

PROGRAM GOALS:

The goals of the Stony Brook University Respiratory Care Program and Polysomnography Specialty Option are to offer the highest quality medical education in a learning environment that fosters critical thinking, encourages professional leadership, inspires research, and instills a strong appreciation of ethical values and human diversity. The Respiratory Care Program and Polysomnography Specialty Option (PSO) at Stony Brook emphasize quality care and provide students with the opportunity to develop the knowledge, skills, and attitudes necessary to be outstanding patient care providers.

DEPARTMENT OF RESPIRATORY CARE EDUCATION PROGRAMS

The Department of Respiratory Care is located within the Division of Diagnostic and Therapeutic Sciences in the School of Health Technology and Management at Stony Brook University Health Sciences Center. The department offers the following education programs.

Respiratory Care Program and Polysomnography Specialty Option

The Respiratory Care Program is a 2-year upper division professional program that requires students to have a minimum of 57 credits of required, recommended and elective courses. Students who satisfactorily complete the 2-year upper division professional program are awarded a Bachelor of Science degree and the school’s certificate of professional achievement. Minimum required courses include: 3 credits English composition; 6 credits in arts and humanities (excluding studio, skills, or technique courses); 6 credits social and behavioral sciences; 11 credits of biology, including 8 credits
of general biology with labs and 3 credits of microbiology; 8 credits of chemistry with labs; 4 credits of physics with a lab; and 3 credits of statistics.

Stony Brook freshmen have the opportunity to declare respiratory care as a lower division major. Students successfully completing the lower division major are automatically advanced to the upper division professional program. In order to advance into the upper division program, freshmen must complete all prerequisites with a grade of C or better by the end of the sophomore year, pass HAT 210 - Introduction to Respiratory Care with a grade of B or better, maintain a minimum cumulative grade point average (GPA) of 2.5, and a minimum science GPA of 2.0.

The Respiratory Care Program also offers an accredited Polysomnography Specialty Option leading to a certificate of completion in Polysomnography for those senior students in the program that are in good academic standing who would like advanced education in sleep technology. The number of students enrolled in the Polysomnography Specialty Option is limited to approximately 15. Senior students in good academic standing and with no outstanding admission prerequisites are eligible for the Polysomnography Specialty Option. A selection lottery is used if more than 15 students apply. Students who satisfactorily complete the Polysomnography Specialty Option curriculum are additionally awarded a Polysomnography certificate of completion.

The Respiratory Care Program and Polysomnography Specialty Option are accredited by the Commission on Accreditation for Respiratory Care (CoARC) [www.coarc.com] located at 1248 Harwood Road, Bedford, Texas, 76021-4244, (817) 283-2835. The Respiratory Care Program is also an education program approved by the New York State Department of Education. Stony Brook University is accredited by Middle States Commission on Higher Education Accreditation (last reaffirmed 11/19/09) located at 3624 Market Street, 2nd Floor West, Philadelphia, PA, 19104, Telephone: (267) 284–5000, www.msche.org.

Graduates are eligible to take the National Board for Respiratory Care examinations to become a Certified Respiratory Therapist (CRT) and a Registered Respiratory Therapist (RRT). Graduates of the Polysomnography Specialty Option are eligible to take the Sleep Disorders Specialty (SDS) examination upon earning CRT or RRT credentials. Please visit www.NBRC.org for further information, exam eligibility, and requirements.

Graduates will also need to apply to the New York State Department of Education to obtain a license to practice as a Respiratory Therapist in New York State. Please visit: www.op.nysed.gov for further information.

**Continuing Education Programs**

A variety of continuing education programs are offered to community practitioners in both Respiratory Care and Polysomnographic Technology. Students who satisfactorily complete the continuing education programs are awarded a certificate of attendance.
Course Grades

It is the policy of the Department of Respiratory Care that students must pass all professional, basic science, core, and elective courses in order to be cleared for graduation. All students take a specific sequence of courses during their junior and senior years. The University’s Graded/Pass/No Credit Option (GPNC) is not permitted for department courses. Unless otherwise stated in a departmental course syllabus, the final percent grade is assigned a letter grade as follows:

- 95 - 100%  A
- 90 - 94.9%  A
- 87 - 89.9%  B+
- 83 - 86.9%  B
- 80 - 82.9%  B
- 77 - 79.9%  C+
- 73 - 76.9%  C
- 70 - 72.9%  C-
- 66 - 69.9%  D+
- 60 - 65.9%  D
- 0 - 59.9%  F

For the purpose of determining grade point average, letter grades are assigned point values as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Superior</td>
<td></td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>Good</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>Satisfactory</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>Poor</td>
<td></td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>Failure</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Please Note:

1. Students should check with the course instructor and with their advisors if they are not doing satisfactory work in a course.
2. While most faculty have an open door policy for any student concerns, more extensive appointments for further clarification of course material can be made with each course instructor.
3. Students having grading issues with department faculty are welcome to make an appointment with the Department Chair to review any concerns.
Grade Point Average

Students in the School of Health Technology and Management are required to maintain a cumulative average as follows:

1. Professional Courses (HAT) – 2.50 cumulative average
2. Overall average (all HSC courses) – 2.00 cumulative average

It is the responsibility of the students to check their own grades and averages, and to notify their advisors when they are having difficulty with courses, receive a grade that is less than satisfactory in a given course, or when their overall or professional average approaches unsatisfactory levels. Faculty will also check cumulative averages at appropriate intervals to insure that minimum requirements have been met. Students who fall below the minimum may be placed on probation or terminated. Students should also be aware of the fact that some courses are prerequisites for other courses and if a required course is not successfully passed with a D or better, then continuation in the program is based on a complete academic review and recommendation to the Dean.

Failing Grades

Students receiving a grade of “F” in any course, except HBA 461 – Regional Human Anatomy (see note below), may be subject to termination from the program. Please refer to the SHTM academic policies and procedures concerning academic standing, termination, and appeal listed in the first section of your student orientation handbook.

Please note:

HBA 461 – Regional Human Anatomy is a prerequisite for all program courses. This course must be successfully passed with a minimum grade of “D” to continue in the program. Failure to earn a passing grade in HBA 461 will result in termination from the Respiratory Care Program.

Communication with students and program faculty/staff:

All students will be assigned a Stony Brook email account. Email correspondence between faculty/staff and students will occur using the student’s Stony Brook email account. It is the student’s responsibility to ensure that this account is working and monitored frequently (we suggest checking your email daily). Missing emails will not be an excuse for missing classes, exams, clinicals, or other program correspondence.
Attendance

Courses

Attendance and punctuality for all courses is mandatory
All instructors are encouraged to take attendance and keep track of lateness. Each instructor has the prerogative to decrease a student’s final grade for repeated lateness or unexcused absences. Excessive unexcused lateness or absences (3 or more occurrences) are grounds for a grade of “F” in the course (please see the “Failing Grades” section above). The student is required to leave a message for the instructor concerning the circumstances of the lateness or absence. It is the instructor’s prerogative to require written documentation to excuse lateness or absences. Failure to provide requested written documentation will classify the event as unexcused.

Clinicals

Attendance and punctuality for all clinical rotations is mandatory.
The clinical site, the program’s Director of Clinical Education (DCE), and the supervising program faculty must be advised of any lateness or absences prior to the start of your clinical for that day. Any unexcused absence or lateness is reason for lowering of the final clinical grade. Excessive unexcused lateness or absences (3 or more occurrences) are grounds for a grade of “F” in the clinical rotation (please see the “Failing Grades” section above). Written documentation to excuse lateness or absences will be required. Failure to provide requested written documentation will classify the event as unexcused.

Early dismissals or planned absences must be arranged in advance with the director of clinical education.
Once permission is given, the student must notify both the supervising program faculty and clinical instructor at the assigned clinical site. Failure to follow the above steps is reason for lowering of the clinical grade. Excessive unexcused early dismissals (3 or more occurrences) are grounds for a grade of “F” in the clinical rotation (please see the “Failing Grades” section above).

Please note:
If the clinical faculty dismisses you early from your assigned clinical, you must notify the Director of Clinical Education and supervising program faculty.

Course Waivers

The Department of Respiratory Care has a policy of encouraging course waivers, and challenges (subject to the rules and regulations of the School). This option is provided to our students so that course work completed at other institutions will not necessarily have to be repeated. Students should plan on applying for course waivers or challenge credit two months prior to the
beginning of the course involved. Please check with your advisors for more information concerning this policy. You will need to provide transcripts and catalog descriptions of prior work which you would like to have considered for use as challenge or waiver material.

**Academic Integrity**

Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty are required to report any suspected instances of academic dishonesty to the Academic Judiciary. Faculty in the Health Sciences Center (School of Health Technology & Management, Nursing, Social Welfare, Dental Medicine) and School of Medicine are required to follow their school-specific procedures. For more comprehensive information on academic integrity, including categories of academic dishonesty, please refer to the academic judiciary website at http://www.stonybrook.edu/uaa/academicjudiciary/

The Department of Respiratory Care considers any unauthorized possession of its previous exams, papers etc. to be a violation of the School’s policy. The Respiratory Care faculty does not allow past exams to circulate, and therefore any student possessing or circulating them is subject to disciplinary action and/or dismissal. The student should refer to the SHTM's guidelines regarding the policy as it applies to the core courses (ethics, research design and management concepts), and the basic sciences (anatomy, physiology, pathology, pharmacology). For example, several of the basic science faculty place old exams on reserve in the library or return them to past students upon course completion. These materials may be appropriate to have, providing the course instructor has indeed granted permission, either verbally to the whole class, in writing in their course syllabus, or are specifically identified as such in the SHTM's guidelines.

No programmable calculators or other study aids are allowed in any exam, except where the instructor has specifically designated such items as permissible. If in doubt, ask your instructor prior to the start of any examination!!

**Critical Incident Management**

Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Judicial Affairs any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students' ability to learn. Faculty in the HSC Schools and the School of Medicine are required to follow their school-specific procedures.

**Disability Support Services (DSS) Statement**

If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Disability Support Services, 128 ECC Building (631) 632-6748. They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential. Students who require assistance during emergency evacuation are
encouraged to discuss their needs with their professors and Disability Support Services. For procedures and information go to the following web site: http://www.stonybrook.edu/ehs/fire/disabilities and search Fire Safety and Evacuation and Disabilities.

Our programs will work with disabled students in an effort to address their need for reasonable accommodations, but the programs must follow national and state professional scope of practice guidelines. All students are expected to complete the necessary educational requirements as outlined by the program. Students should also refer to the “Technical Standards” in this manual.

**Professional Appearance**

Students are expected to dress in a professional manor, which includes wearing clean, appropriately fitting clothing. It is advised that students limit the use of jewelry to minimize safety concerns, especially during laboratory courses and clinicals. A separate policy governing the dress code for clinical rotations is explained in the *Clinical Policies* section of this manual.

Appropriate professional appearance is also expected of all students. This includes maintaining appropriate personal hygiene. Students are expected to come to all courses (both didactic and clinical) appropriately showered and groomed, and to not use strong colognes or perfumes.

**Professional Behavior on Campus**

Students are expected to accept responsibilities for their own actions and to interact with others in a professional and respectful manor. Specifically, students will:

1. Respect the belongings and personal space of faculty, staff, and classmates;
   
   a. Video recordings, audio recordings, or photographs are not permitted without permission;
2. Follow the policies and procedures of the school and the department;
3. Follow the guidelines stated in all course syllabi;
4. Listen attentively in all courses and avoid activities that may be a distraction to others;
5. Stay current and up to date with course work;
6. Communicate with others in a respectful and timely manner and not spread false rumors;
7. Follow the approximate chain of command to solve problems (see table of organization);
8. Use computers in a responsible, respectful manner:
   
   a. Abide by all copyright laws and regulations;
1. Course materials provided by a course instructor or accessed from Blackboard or a Stony Brook course website are for the exclusive use of students who are currently enrolled in the course. Content from these sources cannot be duplicated, reused, or distributed;

b. Do not send obscene, slanderous, libelous and/or harassing messages or materials (i.e: e-mail, social networks, texting, etc.)

c. Do not access unauthorized computers, networks, or files;

d. Do not use department computers and projectors for non-academic purposes (movies, games, music, etc.);

e. Do not install any software on department or school computers.

**Laboratory Access**

Access to the Respiratory Care Department labs is available to all students during normal business hours of 8 am – 5 pm Monday thru Friday. Access to the labs after hours or on weekends will be at the discretion of the Program Director.

Use of equipment (including but not limited to: ventilators, SimMan®, respiratory supplies, A/V equipment, PFT equipment, etc) will be at the discretion and prior approval of departmental faculty.

Students should not leave items such as books, computers, wallets, and purses unattended. The university, school, and program are not responsible for lost or stolen items.

Eating and drinking is permitted in Respiratory Care Department laboratories, providing all refuse is appropriately disposed of and the laboratories are kept clean. There is no eating or drinking permitted at computer stations in the laboratories (including MILC classroom).
Technical Standards in Respiratory Care

The Respiratory Care Program and Polysomnography Specialty Option are accredited by the Commission on Accreditation for Respiratory Care (CoARC) [www.coarc.com] located at 1248 Harwood Road, Bedford, Texas 76021-4244, (817) 283-2835. The Respiratory Care Program is also an education program approved by the New York State Department of Education.

Students preparing for a career in Respiratory Care are expected to perform therapeutic and diagnostic techniques safely and accurately. Students must be able to perform the scope of practice as outlined in national and state standards, including:

- Maintain clinical competence under challenging and sometimes stressful situations
- Gather, assess, and interpret patient data, and respond appropriately to changes in disease signs and symptoms, patient conditions and mental status (e.g. breathing, cardiac, and neurologic patterns)
- Gather data, assess, interpret, and respond appropriately to changes in equipment function/malfunction and safety alarms
- Demonstrate manual dexterity
- Be able to move and/or reposition patients and equipment
- Have a range of motion that allows for reaching hospital equipment such as oxygen administering systems, suction apparatus, electrical outlets, etc.
- Perform physical assessment accurately (e.g. auscultation, physical inspection, palpation, etc.)
- Utilize and monitor sophisticated equipment and technologies
- Read analog and digital displays
- Respond appropriately to a wide range of patient care needs
- Communicate effectively and utilize written and spoken English when interacting with patients, their families, and other health care professionals
- Record, read, write, and interpret data about a patient's condition from charts, radiology screens and computer information systems
- Practice universal precautions when interacting with patients and other health care providers
- Exercise proper clinical and intellectual judgment
- Carry out orders accurately and in a timely manner
- Respond to medical emergencies in a timely manner and perform life sustaining procedures appropriately (e.g. cardiopulmonary resuscitation, electrocardiograms, airway management, blood sampling and analysis)
- Communicate effectively and utilize written and spoken English when interacting with patients, their families, and colleagues.

Students having a past criminal record must declare this situation at the time of admission.
Certain types of criminal offenses may result in an inability to receive professional licensure and job offers upon graduation. **Before starting the program**, students in this situation must speak with the program director to determine the extent of possible future difficulties with this issue.

**Student Clinical Site Directions**

*Note:* All directions given are from Stony Brook University.

**Good Samaritan Hospital**
1000 Montauk Highway
W. Islip, NY 11795

- (631) 376 - 3000 Switchboard
- (631) 376 - 4108 Respiratory Care Dept.
- (631) 376 - 3174 EKG Dept.
- (631) 376 - 3622 Sleep Lab

**Clinicals at site:** HAT 340, 350, 353, 411, 450, 487, 475, 476
**Clinical Faculty/Contacts:**
- Dave Hambel (Director)
- Matthew Traub (Pulmonary Function)
- Jennifer Caufield, Robin Paladin (Cardiopulmonary Rehab)
- Donna McEvoy (Cardiopulmonary Rehab)
- Joe Perrone (Sleep Lab) Barbara Giambrone (EKG),

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to Sagtikos State Parkway (south). Take Sagtikos State Parkway to Southern State Parkway (west). Take Southern State Parkway to Robert Moses Causeway (south - to ocean beaches). Get off Robert Moses Causeway at NY 27A - Montauk Hwy. (west). Make right turn on to Montauk Hwy. Go west a few blocks and the hospital will be on your left. The Respiratory Care Department is located on the first floor in the Baxter Pavilion. The EKG Dept. is located on the first floor. The Sleep Lab is also on the 1st floor. Parking is in the rear of hospital.

**Good Samaritan’s Center for Pediatric Specialty Care**
**Center for Pediatric Sleep Disorders**
655 Deer Park Avenue
Babylon, NY 11702

**Clinicals at site:** HAT 340, 350, 353, 411, 450, 487, 475, 476
**Clinical Faculty/Contacts:**
- Joe Perone (Sleep Lab)

Directions: Take county road 97/Nicolls Road to New York 27 w (Sunrise Highway). Take the service road to Sunrise Highway. Take Sunrise Highway to exit 40 towards NY-231/Huntington/Babylon and merge onto Sunrise Highway North Service Road. Turn right onto Statesman Avenue. Turn Left onto Liberty Avenue. Take the 1st left onto County Road 34 (Deer Park Avenue). Continue to follow Deer Park Avenue to 655 Deer Park Avenue (on your left. There will be a Green Crayola Sign for the Pediatric Specialty Care. After sign, turn left, and parking is immediately on left. Sleep Center Entrance is on **South side** of building)
Jamaica Hospital
8900 Van Wyck Expressway
Jamaica, NY 11418
(718) 206-6091 Respiratory Care Dept (Floor C)
(718) 206-7126 PFT Lab (Floor 1)
(718) 206–5916 (Sleep Center- Trump Pavilion)

Clinicals at site: HAT 353, HAT 350, HAT 450, HAT 411
Clinical Faculty/Contacts: Edward Schrager (Director)
   Urszula Chojecka (Assistant Director)
   Caren Barrett (PFT)
   Ruth Mompoint (Coordinator of the Sleep Center)

Directions: Take Long Island Expressway (I-495) west toward New York. Take the Grand Central Parkway exit
22A – toward Kennedy Airport. Merge onto Grand Central Parkway via the exit on the left. Take the Jackie
Robinson Parkway/Van Wyck Expressway exit 13 toward Kennedy Airport. Merge onto Van Wyck Expressway/ I-
678 S via exit 13 South on the left toward Kennedy Airport. Take exit 6 toward Jamaica Ave/Hillside Ave. Stay
straight onto Van Wyck Expressway service road. First street on the right, make a right. A parking garage is located
on the right. The Respiratory Care Department is located in the basement. The sleep lab is in the Trump Building, in
the basement.

OR
Southern State Parkway west toward New York. Southern State Parkway merges into Belt Parkway West (The
merge will be on the left). Merge onto Van Wyck Expressway (1-678) North via exit 19. Take exit 6 toward Jamaica
Ave/Hillside Ave. First light turn Left onto Jamaica Ave. First light turn left onto Van Wyck Expressway service
road. First street on the right, make a right. A parking garage is located on the right. The Respiratory Care
Department is located in the basement. The sleep lab is in the Trump Building, in the basement.

John T. Mather Memorial Hospital
75 North Country Road
Port Jefferson, NY 11777
(631) 476 – 2721(Sleep)
(631) 476 – 2745 (Respiratory Care Dept.)

Clinicals at site: HAT 450, HAT 475; HAT 476
Clinical Faculty/Contacts: Sleep: Bonnie White (Coordinator), Respiratory Care: Ted Nilsson (Director)

Directions: Take NY 25A (east) to Port Jefferson. Continue following 25A east (right turn at Blinking light by ferry
terminal) till you get to the traffic light at the top of the hill. Turn left onto North County Road. The entrance to
Mather Hospital is a short distance ahead on your left. The Respiratory Care Department is located on the 3rd floor.
The Sleep Lab is in the basement.

Long Island Jewish Medical Center
Lakeville Road
New Hyde Park, NY  10040
(718) 470-7000 (Switchboard)
(718) 470 - 7680 (Respiratory Care Department)

Clinicals at site: HAT 451, 482
Clinical Faculty/Contacts:  Respiratory Care:, Sharon Pollard (Director)

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to  Lakeville
Road  (south) exit. The hospital will be on your right. Use either pay parking garage or free parking on city side
streets near hospital. Respiratory Care is located in the basement.
Long Island Jewish Medical Center
Pulmonary Rehabilitation
410 Lakeville Road - Suite 104
New Hyde Park, NY 11040

(718) 470-7235 (Director)
(516) 465-5420, or 5424 (PFT/Rehab)

Clinicals at site: HAT 353, 487, 411
Clinical Faculty/Contacts: Donna Tsang (Coordinator-PFT)

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to Lakeville Road (south) exit. At the second light make a right into the three building complex. (Note if you reach the hospital entrance you have gone to far). Drive toward the back building and park on the left side of the building. There is plenty of free parking at 410 Lakeville Rd. Enter on the side go down the steps the Pulmonary Rehabilitation and PFT areas are together on the ground floor room 104.

Nassau Chest Physicians
647 Broadway
Massapequa, NY 11758

(516)798 - 1066

Clinicals at site: HAT 353
Clinical Faculty/Contacts: Bill Hanford; David DesJeunes

Directions: Take Southern State Parkway west to exit 30 south – Broadway. Go approximately 2 miles and you will see 647 Broadway on your right.

Northport
Dept. of Veteran Affairs Medical Center
79 Middleville Road 11768

(631) 261 - 4400 (Switchboard)
266-6047 (Noninvasive Cardiology)
Ext. 7280 or 2679 (Pulmonary Lab)
Ext. 2681 (Respiratory Care)

* Use Switchboard to page instructor/supervisor (Respiratory Care)

Clinicals at site: HAT 340, HAT 350, HAT 353, HAT 411, HAT 450
Clinical Faculty/Contacts: Respiratory Care: Chuck Osowski (Director)
Pulmonary Physiology Lab: Colleen Walsh-Irwin
Noninvasive Cardiology: Colleen Walsh-Irwin

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to Sunken Meadow State Parkway (north). Take Sunken Meadow State Parkway to NY 25A (west) and turn left at Rinaldo Road (Follow signs to Medical Center). The hospital is located in Building 200.

North Shore University Hospital
300 Community Drive
Manhasset, NY 11030

516-562-1196 (Cardiac Cath)
516 -562 -2548 (Respiratory Care)

Clinicals at site: HAT 450, HAT 451
Clinical Faculty/Contacts HAT 450, 451: Al Quinones (RC Director), Stanley John (Asst Director), Delta Young and Laura Giazzara (Clinical Coordinators)

Directions: Take LIE (west) to New Hyde Park Road (Exit 34). Go straight on service road to Community Drive. Turn right onto Community Drive (north). Hospital will be up ahead on your right. There is a parking garage available at the hospital. There is also free parking up at the top of the hill.
North Shore University Hospital
Sleep Center
155 Community Drive
Great Neck, NY 11021

Clinicals at site: HAT 475; HAT 476
Clinical Faculty/Contacts: Kristen Cruz (Director)

Directions: Take LIE (west) to New Hyde Park Road (Exit 34). Go straight on service road to Community Drive. Turn right onto Community Drive (north). Go approximately 3 to 4 lights. (You will pass two entrances to Northshore Hospital on your right.) On your left look for a living assistance apartment building. Just past the building you will make a left and follow the road up the hill. You will pass a dialysis center on your right. Free parking is available on the left side of the building (#155). The entrance to the Sleep Center is on the ground floor on the left side of the building.

Queens Hospital Center
82-68 164th Street
Jamaica, NY 11432

Clinicals at site: HAT 353
Clinical Faculty/Contacts: Pulmonary Function Lab:

Directions: Take NY 347 (west) to Northern State Parkway (west). Northern State Parkway will turn into Grand Central Parkway once you reach NY City. Take Grand Central Parkway to 168th Street exit. Continue on the service road to 164th Street. Make right turn onto 164th Street. The hospital is on the left side of the street. The Pulmonary Function Lab is located in New Bldg on the first floor in room B110.

Saint Charles Hospital
200 Belle Terre Road
Port Jefferson, NY 11777

Clinicals at site: HAT 487
Clinical Faculty/Contacts: Chris Becker (Cardiopulmonary Rehabilitation)

Directions: Take NY 25A (east), go straight past Blinking light at ferry terminal to Belle Terre Road. Make right onto Belle Terre Road. Hospital will be up ahead on your right. Park on the Chapel side of the building. Walk towards the BOCES Learning Center on the sidewalk through the playground. Follow the signs for Outpatient Cardiopulmonary Rehabilitation. Go in the side entrance. The Cardiopulmonary Rehabilitation gym is the second door on your left.

Saint Catherine of Siena Medical Center
50 Route 25A
Smithtown, NY 11781

Clinicals at site: HAT 350, HAT 450, HAT 411, HAT 475, HAT 476
Clinical Faculty/Contacts: Gary Chudow (Director)

Directions: Take the Long Island Expressway (LIE) to Exit 57 Veterans Memorial Highway (Route 454). At exit ramp make a right turn onto Veterans Memorial Highway. Travel 1/4 mile and make a right turn onto Route 111 (North). Travel north on Route 111 until Route 25 (Main Street) in Smithtown intersects Route 111. Make a left turn onto Main Street and travel through the town to the statue of the Smithtown Bull, where 25 and 25A intersect. At the statue of the Smithtown Bull, bear right onto 25A. Go to the first traffic light and make a left turn into the Medical Center. Travel to the top of the hill.
Saint Francis Hospital
100 Port Washington Boulevard
Roslyn, NY 11576

 Clinicals at site: HAT 482
Clinical Faculty/Contacts: Jerry Rodriguez (Cardiac Cath. Lab)
Directions: Take NY 347 (west) to Northern State Parkway (west). Cross over to the Long Island
Expressway when convenient. Take the Long Island Expressway to exit 36, Searingtown Rd.
(north). Searingtown Rd. turns into Port Washington Blvd. north of NY 25A. The hospital
is on the left a short distance north of NY 25A. The Cardiac Cath. Lab is on the third floor.
Parking is available at the hospital.

Southside Hospital
Montauk Highway
Bayshore, NY 11706

 Clinicals at site: HAT 340, HAT 350, HAT 411, HAT 450
Clinical Faculty/Contacts: Respiratory Care: Tim Fischer (Director), Gloria Hoerning (Technical Coord)
EKG Department: Edna Bode
Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to
Sagtikos State Parkway (south). Take Sagtikos State Parkway to Southern State Parkway (east). Upon getting on
Southern State Parkway, get into right lane and immediately get off at Fifth Ave. (south). Take Fifth Ave. to
Montauk Highway (NY 27A) and make a left. Go east on Montauk Highway; the hospital will be a short distance
ahead on the left. The Respiratory Care Department is located on the third floor. The EKG Dept. is located on the
first floor (Tower Building), near the Laboratories.

Southampton Hospital
240 Meeting House Lane
Southampton, NY 11968

 Clinicals at site: HAT 350, HAT 411, HAT 487
Clinical Faculty/Contacts: Respiratory Care:

 Coming from the west on the Long Island Expressway
Take the Long Island Expressway (LIE Route 495) east to exit 70.
Take Route 111 south to the Sunrise Highway (Route 27, which becomes Country Road 39). Travel east for
approximately 20 miles to the hospital sign, "H." At the intersection of North Sea Road in Southampton, turn
right at the traffic light (there is a Seven-11 convenience store at this intersection).
Proceed straight ahead through four traffic lights and at the fifth traffic light turn left on to Meeting House
Lane and go directly to the Hospital. RC Dept on third floor.

 Coming from the west on the Sunrise Highway
Take the Sunrise Highway (Route 27) east until it becomes a local three-lane road – follow that road (Route
27/County Road 39) to the hospital sign, "H." At the intersection of North Sea Road in Southampton, turn right
at the traffic light (there is a Seven-11 convenience store at this intersection). Proceed through four traffic
lights and at the fifth traffic light turn left on to Meeting House Lane and go directly to the Hospital. RC Dept
on third floor.
**Stony Brook Sleep Disorders Center**
240 Middle Country Rd
Smithtown, NY  11787  (631) 444 - 2500

Clinical Faculty/Contacts: Barbara Ludwig-Cole (Director)

Directions: Take 347 west to Jericho Turnpike/Middle Country Rd, make a right turn onto Jericho Turnpike/Middle Country Rd. Continue to 240 Middle Country Rd and make a left. Sleep Center is in the back.

**University Hospital Medical Center**
SUNY at Stony Brook
Stony Brook, NY  11794

(631) 689 – 8333 (Switchboard)
(631) 444 - 2390 (Respiratory Care)
(631)444-8137(Pulmonary Function)
(631) 444 - 3701(Cardiac Cath. Lab)

Clinicals at site: HAT 340, HAT 350, HAT 353, HAT 411, HAT 450, HAT 451, HAT 482

Clinical Faculty/Contacts:
Respiratory Care: Maureen Turner (Director), Sharon Close (Associate Director),
Pulmonary Function: Natalie Sachman, Susan Andersen,
Invasive Cardiology: Yvonne Leippert

Directions: 1. Respiratory Care is located on level three 2. Pulmonary Function is located on level three 3. Cardiac Cath Lab is located on the 5th floor

**Winthrop University Hospital**
259 First Street
Mineola, NY 11501

(516) 663 - 0333 (Switchboard)
663 - 8951 (Cardiac Cath. Lab)
663-8947 (Cath Lab Director)

Clinicals at site: HAT 482; 353

Clinical Faculty/Contacts: Cardiology Department: Gina Berrent (Operations Manager Cath Lab)

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway west bound to Meadowbrook Parkway South, once on Meadowbrook Parkway, 1st exit is Old Country Road, take Old Country Road West. Stay on Old Country Road for approximately 7 traffic lights. Make a right on Mineola Blvd. (Green Glass Citi Bank Building on Rt). At first traffic light = 1st Street make a left. Park in the visitors garage. Go to second floor to cardiac cath lab.

**Winthrop Pulmonary Associates**
222 Station Plaza, Suite 400
Mineola, NY 11501

(516) 663 - 2932 (Pulmonary Function Lab - outpatient)

Clinicals at site: HAT 353

Clinical Faculty/Contacts: Gary Fitzgerald

Directions: Take NY 347 (west) to Northern State Parkway (west). Take Northern State Parkway to Glen Cove Road (south) exit. Make a right turn onto Old County Rd. Make a right turn onto Mineola Blvd. Go over the railroad tracks and make a left at the first traffic light (2nd St.). Winthrop Pulmonary Associates is located in Building 222 which will be on your left. Go to Suite 400.
CLINICAL POLICIES
STUDENT RESPONSIBILITIES

1. Physical Exam and Immunization Records

All students are to have their history and physical records updated yearly. The results must be reported to the University’s Student Health Service prior to the start of clinical rotations. Any student who does not provide the required health clearance documentation will not be allowed to attend clinical courses until all the requirements are satisfied. (See SHTM Student Handbook for details.)

Clinical rotations also require screenings, immunizations, and blood titers for certain diseases. You will have to arrange for required screenings, immunizations and blood titers prior to beginning clinical rotations each school year. In some instances, a chest x-ray may be also required.

Students are also subject to any additional requirements that may be required for attendance at any of the clinical facilities used during the school year. These requirements will be specified after the clinical schedule has been developed and may include additional laboratory, diagnostic, and/or drug screenings, plus a criminal background check (as required by that institution). Students should make arrangements to have this done and to have the appropriate documentation sent as directed to the specified receiving agency (i.e., Student Health Service, Department of Respiratory Care, or Clinical Affiliate).

In the event that a criminal background check, physical examination, and/or lab data uncovers a situation which would preclude school activities, the student will not be permitted to undertake that activity. The nature of the situation will be reviewed with the student by the Director of Clinical Education in consultation with the Program Director. The student will be informed when and if clinical rotations can be resumed.

2. Student Injuries While on Clinical

An SHTM Safety Incident Report must be filled out by the covering program faculty for any student injury. Completed forms are to be returned to the Program Director for review.

The student should be seen for emergency care and needle sticks as recommended by the covering clinical faculty. This does not include routine care for colds, flu or other routine medical care. All paperwork required by the clinical site must be completed. Treatment at an Emergency Room at the clinical site may come with financial obligation.

3. Student Health Insurance

All Stony Brook students are now required to either purchase health insurance through the university or provide proof of equivalent insurance. This is a university based initiative that includes all full-time students.
4. **Identification**

While on clinical rotations all students are to wear proper SHTM/RC identification as follows:

A. SHTM emblem sewn on left shoulder of white lab coat  
B. A name tag and/or ID badge (provided by SHTM or the clinical site identifying you as a student.

5. **Dress Code**

The uniform used during clinical practice will be in accordance with the policy established by the Department of Respiratory Care and/or the School of Health Technology and Management.

**While at the clinical sites, the student shall wear:**

1. Short white "blazer" style jacket with proper identification as outlined above.

2. Appropriate fitting clothing with no mid drift exposed, etc. Limit jewelry (necklaces, piercings, earrings, etc.) as these pose a safety hazard. No hats to be worn on clinical.  
   a. Males should wear dress pants, dress shirt, lab coat (with ID and school patch), and dress shoes.  
   b. Females should wear dress pants or skirt, dress shirt or blouse, lab coat (with ID and school patch), and dress shoes. Artificial nails will need to be removed for clinicals.  
      **NOTE:** No denims are permitted!  
   c. Clinical sites may allow the use of scrubs. It is up to the discretion of the clinical site whether to allow students to wear scrubs.

3. Dress shoes, clean sneakers (if scrub uniforms are worn). For clinical rotations, the student will dress professionally with flat dress walking shoes.  
   **NOTE:** Shoes must have no heel, be closed over toes and around back of foot, and be comfortable. No sandals, open-toed shoes, work boots, or other non-professional shoes will be allowed.

4. Students who do not wear the appropriate uniform or display the required SHTM/RC identification as outlined above will be asked to leave the clinical site and the program will be notified. Any time missed will be made up as assigned by the Director of Clinical Education, otherwise an incomplete ("I") grade will be issued.

5. Students are expected to comply with all national, state and university requirements regarding transmission precautions/protective garments during clinical rotations.
6. Attendance/Absence

Each student is to complete all assigned clinical time. Each student is expected to be present and ready to begin his/her clinical practicum promptly at the assigned starting time each day and is to remain until report to the next shift is completed. All clinical time scheduled must be accounted for and it is the student's responsibility to make up any missed time. In case of illness or tardiness, it is the student's responsibility to notify the clinical site at least one hour prior to the start of the shift. The student should then contact the covering program faculty and Director of Clinical Education at the start of the shift for further instructions regarding the make-up of that time. Repeated absenteeism and/or lateness will result in a lowering of the final grade. A grade of “I” will be submitted if the student fails to make up any time at the end of the rotation. Any request for time off from clinical must be approved by the Director of Clinical Education, prior to that time, with a specified make up time scheduled.

7. Student Performance

Students are expected to be responsive and enthusiastic in their performance. They are to follow directions, be attentive to patients, ask questions and participate actively in all learning experiences. They are also expected to seek out independent learning experiences as well as those assigned, and should utilize time effectively and be familiar with all learning objectives.

8. Professional Behavior

While assigned to a clinical facility, students are responsible to the appointed clinical faculty as well as other departmental personnel including the medical and technical directors, the supervisors and the assigned staff. Students are obligated to abide by all hospital and departmental policies as well as all other rules and regulations as set forth by the University, SHTM, and the Department of Respiratory Care. Unexcused tardiness or absence, unavailability, inappropriate behavior, conduct, or dress; or failure to comply with the university or clinical faculty rules and regulations may result in immediate disciplinary action by the clinical faculty, director of clinical education or the program director/department chair. All students are responsible for conducting themselves in a professional manner during any educational experience at a clinical affiliate and for demonstrating respect towards its’ personnel, patients and families. This includes being enthusiastic, mature, motivated to learn and accepting of responsibility (see SHTM Student Handbook). Should a problem arise (personally, professionally, or medically), the student should immediately contact the clinical instructor and the director of clinical education. It is our hope to make this rotation as rewarding as possible. Facilitation of your instruction and well-being is our primary goal, but we cannot do it without your cooperation.

9. Clinical Passport

The clinical "passport" is a record of the student's clinical experiences based on the instructional and behavioral objectives agreed upon by the Respiratory Care faculty and the clinical faculty. It is comprised of therapeutic and diagnostic tasks that are specific for each rotation and tailored to
the particular affiliate. All students are required to purchase and thoroughly read this passport, and be familiar with its contents.

Students must bring their “passports” every day to their clinical rotations so that they will have a clear understanding of the tasks that they are required to perform. As each behavioral objective is accomplished, it is signed by the student and the clinical instructor. It is the responsibility of the student to keep the “passport” updated and to obtain the required signatures. Prior to entering a grade for that rotation, the program’s director of clinical education or faculty designee will completely review each passport. Students are required to return their “passports” on the last day of the clinical. Failure to do so may result in a lowering of the final grade.

10. **Reading Assignments**

All students may be required to purchase texts at the discretion of the director of clinical education. This will be made known prior to the start of the rotation. In addition, the clinical faculty may assign certain readings that are appropriate to the clinical topics. All students are responsible for completing these assignments on their own time and be prepared to discuss them during their rotations.

11. **Clinical Objectives**

Each student is expected to master all course objectives as listed in this passport. Students should expect to be quizzed both verbally and/or in writing relative to the content of the clinical practicum. All evaluation forms have been included in the passport for student and clinical faculty use.

12. **Student Log**

The log will not be graded but will be evaluated for its appropriateness to the clinical rotation by the director of clinical education. The log is a requirement for completion of this rotation. It will be used to document daily activities and thus will provide information regarding areas of practice that have/have not been assigned. The clinical faculty should co-sign the log daily and use it to plan for further learning experiences.

13. **Performance evaluations by Clinical Faculty**

There will be performance evaluations during this rotation. Each one is designed to evaluate the student's progress to date and provide feedback for remediation. The student will be directly observed performing clinical tasks and scored using the passport.

14. **Evaluations by the Director of Clinical Education and/or other university professors**

In addition to the performance evaluations, each student will be given a grade for other evaluations specific to that particular clinical rotation.
15. **Case Presentation**

For most clinical rotations, each student is required to present at least one clinical case to the clinical faculty and/or staff. The case presentation will be based on an actual patient situation that the student has been following during the practicum and an article related to the case.

16. **Criteria for Repeating Clinical Evaluation**

A score of zero in any of the performance evaluations will require a reevaluation of the student. In this event the weighted evaluation score will be an average of the first and second evaluations.

17. **Criteria for Immediate Dismissal from a Clinical Site with Subsequent RC Review of Student's Progress to Date**

1) A failure on the second evaluation of a performance evaluation.
2) Chronic tardiness or absenteeism which is defined as more than two (2) occurrences in one week or three (3) for the current rotation without medical documentation and/or failure to contact the site, the covering program faculty, and the Director of Clinical Education.
3) Academic and/or clinical dishonesty and failure to report such occurrences.
4) Failure to follow passport regulations.
5) Demonstration of inappropriate clinical judgment that endangers the welfare of patients, their family, oneself, or clinical affiliate personnel.
CLINICAL FACULTY RESPONSIBILITIES

1. Faculty Appointments

All clinical faculty are to complete and return all documents pertaining to their clinical faculty appointments.

2. Clinical Passport

All clinical faculty should be thoroughly familiar with the contents and objectives of each passport/rotation that they participate in.

3. Student Coordination

The clinical faculty is responsible for coordinating all student learning experiences and working with the director of clinical education in preplanning those experiences before each rotation starts.

The clinical faculty is responsible for coordinating the students' day to day learning experiences while they are at your facility.

As a clinical faculty member, it is your responsibility to accept students assigned to you willingly and with enthusiasm. Your duties will include the providing of on-going clinical instruction; including reviewing patient records, techniques and modes of therapy, review of diagnostic procedures for equipment, departmental procedures and records, as well as direct patient contact activities.

As a clinical faculty member you will act as the student’s primary clinical instructor and will directly supervise and evaluate their progress in all patient care situations.

The clinical faculty will act as the liaison between the clinical site department personnel (i.e. department managers, supervisors, etc), Stony Brook’s Respiratory Care Director of Clinical Education, and the student in order to insure that they are being provided with optimal patient care experiences. Clinical faculty should personally pick out the types of patients and the quantity of therapy that is appropriate for the students. This rationale will help insure that the student develops and learns at his/her own individual pace.

4. Physician Input Coordination

Physician input into the clinical instructional system is a very important component of the student's overall education. The input can be in the form of patient rounds, clinical care conferences, departmental or other hospital in-services, or can be demonstration (i.e. bronchoscopy or other medical procedures). The student/physician relationship should enhance the stated objectives of the rotation. Physicians that should be included are: 1) The department
medical director and his/her associates; 2) attending physicians; 3) subspecialty physicians; and 4) fellows and residents. All physician contact time must be documented by the student on the daily log sheet of the clinical passport.

5. **Record Keeping**

It is the responsibility of the clinical faculty to accurately keep up to date attendance records and passport objectives met.

The clinical faculty is also responsible for administering all performance evaluations and should use the objectives list to monitor the student's progress during the rotation.

6. **Student Evaluation**

The clinical faculty is responsible for evaluating the students' performance in all content as outlined in this passport. All clinical faculty should try to evaluate each student individually, and as objectively as possible. This includes proper documentation at all times. Following this format will allow fairness to all individuals involved in the evaluation process. The student should be evaluated once a week; that evaluation should then be reviewed and signed by the student after each evaluation.

As a clinical faculty member you will also be called upon to counsel students in both professional and academic matters. This responsibility should not be taken lightly. All counsel should be provided in an atmosphere of trust and positive reinforcement. Any problems that cannot be resolved by the parties involved should be referred to the director of clinical education as soon as possible.
DIRECTOR OF CLINICAL EDUCATION
RESPONSIBILITIES

1. Clinical Faculty

The director of clinical education, in consultation with the program director, will initiate all clinical faculty appointments.

The director of clinical education will supervise and coordinate the clinical faculty of the hospital affiliates and plan the activities for each practicum.

The director of clinical education will meet with the clinical faculty at least once during the academic year.

The director of clinical education shall, on an ongoing basis, evaluate the quality, contribution and appropriateness of all clinical faculty and/or staff participating in clinical instruction and provide in-service or seminars to improve the quality of that instruction. This evaluation will be both informal and formal and will be drawn from student evaluations and evaluations from the director of clinical education (see evaluation forms in Appendix B).

The director of clinical education will notify the clinical faculty of any curriculum changes so that they can be incorporated into each clinical practicum.

2. Clinical Practice

In consultation with the departmental chair, program director and medical director, the director of clinical education will insure that instruction in the clinical affiliates is properly coordinated and that all students receive adequate medical and technical instruction, patient exposure and learning experiences to successfully complete each clinical objective.

The director of clinical education will assign and schedule all students who have met the prerequisites to a clinical site.

The director of clinical education will notify each clinical affiliate of the dates, schedule of events and student names participating in each practicum.

The director of clinical education will integrate each clinical practicum with the curriculum, goals and objectives of the respiratory care program.

The director of clinical education, in conjunction with the clinical faculty, their medical directors, and the medical directors of the Respiratory Care and Polysomnography Option programs, will plan and evaluate all physician input that occurs during the clinical practical.
3. **Student Evaluation**

The director of clinical education will regularly schedule visits to the clinical affiliates in order to counsel students or evaluate their skill competence as outlined in each clinical passport.

The director of clinical education, in consultation with program faculty and clinical faculty, will assure that a practicum grade has been recorded based on the criteria outlined in each clinical passport.

The director of clinical education is responsible for all aspects of clinical education. All problems/issues regarding clinical education should be directed to the director of clinical education.

4. **General Responsibilities**

The Director of Clinical Education will:

- Provide informal and formal data regarding clinical instruction to the program director and together with the medical director evaluate all phases of the clinical component of the program.
- Investigate ways to enhance/increase student/physician contact.
- Update CoARC clinical information on an ongoing basis.
- Make appointments for clinical site visitations.
- Review clinical site/rotation evaluation forms and make adjustments as required.
- Review student clinical records.
- Promote professionalism and quality patient care within the clinical affiliates.
- Provide the clinical affiliates with in-service education and preceptor training as needed.
- Encourage questions, comments and suggestions concerning clinical education.
- Keep the program director and medical director informed of all data regarding clinical education.
MISCELLANEOUS POLICIES

Faculty Advising

All students in the Respiratory Care Program are assigned a faculty advisor. Please consult with your advisor first regarding all academic and non-academic issues. Your advisor will refer you for additional assistance as needed.

Please see the Director of Clinical Education for all issues regarding clinical rotations health clearances, and background checks.

If you have a problem with any of the Department’s faculty or staff, please make an appointment with the Department Chair to discuss your concerns.

Class Representation

The election of class representatives occurs during the first week of module 1. The term of the class officers is for one school year; however, officers may run for a second term. The class officer positions are: president, vice-president, secretary, treasurer, Health Science Center Student Association representative, and Deans’ Advisory Committee representative. The class officers work together to: 1) represent the class on various committees within the program and school, 2) plan/ implement student fundraising activities 3) plan/implement student social activities, and 4) assist the program with necessary functions where student volunteers are needed. Two of the class officers from each class (typically the president and vice president) will serve on the program’s advisory committee and will be expected to attend scheduled meetings.

All students are also encouraged to participate on standing and ad-hoc committees of the School of Health Technology and Management (see the SHTM Policy titled “Student Participation on SHTM Committees”).

Scholarships

Students in the Department of Respiratory Care are eligible for various scholarships. Some of the scholarships are from within the department, some are within the School of Health Technology and Management, some are from Stony Brook University, and some come from external organizations. The availability, amount of scholarship money and the criteria for these scholarships varies from year to year. The program director will forward all relevant scholarship information to you as the scholarships become available. Please carefully review the criteria for each scholarship and provide all requested materials by the specified deadline date in order to have a chance of receiving a particular scholarship.
Financial Aid

You may be eligible for financial aid. Please contact the Health Sciences Center (HSC) Office of Student Services with any questions you may have at 631-444-2111 or visit the office directly Monday to Friday from 10 AM to 4 PM at HSC, Level 2, Room 271 or visit their website at: http://www.stonybrook.edu/hscstudents/.

Membership in Professional Association

All students are expected to maintain student membership in the American Association for Respiratory Care (AARC) while in this program. Membership in the AARC is a vital component of being a professional member of this field. Benefits of student membership include access to electronic media, subscriptions to two of the field’s primary journals: Respiratory Care and the AARC Times, automatic membership in the New York State Society for Respiratory Care, and significantly discounted admission fees at national, state and local symposiums (American Association for Respiratory Care, 9425 N. MacArthur Blvd. Suite 100, Irving, TX, 75063-4706, Phone (972) 243-2272, www.aarc.org).

Summer Courses

Our curriculum for the junior year extends from the 4th week of June until the middle of the following July (Module 9). Students must pay separate fees for these two summer sessions (6 credits for the first summer and 4 credits for the second summer). These sessions are not included in either the fall or spring semester tuition bills and are considered separate summer sessions.

Malpractice Insurance

Each student is required to have annual malpractice insurance and will not be allowed to attend clinical without it. The cost is approximately $35.00 per year. Students are required to purchase insurance online at www.proliability.com and submit proof to the department each year by October 1.

HIPPA Training and HSC Workforce Confidentiality Agreement

All Health Sciences Center students must complete the required HIPAA training and HSC Workforce Confidentiality Agreement. All information concerning patients is confidential and must not be discussed with anyone who is not authorized or does not require the information for care of that patient. HIPPA training is provided at SHTM orientation and each student must satisfactorily complete the required on-line exam to be in compliance with this requirement.

Travel Arrangements

The Department of Respiratory Care does not provide travel accommodations to activities (such as to clinical rotations). These arrangements must be made by you. The best solution is to have
your own car. We are primarily concerned with setting clinical rotation schedules in a manner consistent with educational mandates. It is the each student’s responsibility to arrive at the clinical site on time and be prepared for participating in the clinical experience.

Use of Department Equipment and Files

Department of Respiratory Care typewriters, computers, and school duplication equipment may not be used by students, except for specific learning computers designated by the faculty. Program and faculty files (paper and electronic) are "off limits" to all students. Retrieval of permitted files may be accomplished by asking your course instructor or faculty advisor. Departmental phones may not be used by students. Failure to adhere to these policies will result in disciplinary action.

BLS Certification

All students are required to have current American Heart Association Basic Life Support for Healthcare Providers (BLS) certification. Students will not be allowed to attend clinical rotations if this certification has either not been obtained, or has expired. An original signed BLS certification card must be presented to the program to complete this requirement.

ACLS Certification

All students are required to have current American Heart Association Advanced Cardiac Life Support certification completed by the end of Module 6 of their senior year. A student will not be cleared for graduation until an original signed ACLS card is presented to the program.

Professional Service Requirement

Participation in professional service activities is a graduation requirement for all students enrolled in the Stony Brook University Respiratory Care Program. Each student is required to participate in professional service while enrolled in the program in order to fulfill this requirement. In order to document participation, each student will maintain a journal of professional activities. The journal must include:

- Name of student

All entries in the journal must include:

- Date of professional activity
- Description of professional activity including your role in the activity
- A list and sum total of points earned
- Supporting documents to substantiate completion of each specific activity
  - Letters, certificates, written summary, etc.

Each student must have a minimum of 100 points in order to be cleared for graduation.

The journal must be submitted to the student’s designated faculty advisor for graduation clearance by the end of MODULE 6 in the senior year of the program.
Professional activity points with supporting documentation are given as follows:

a. Volunteer at a professional or program event - 20 points
b. Program or class-sponsored bake sale event – 10 points
   *Note: Limited to one event per student*
c. Volunteer with departmental research endeavors - 20 points
d. Attendance at Grand Rounds – 10 points
   *Note: With written summary of presentation*
e. Attendance at a full-day professional symposium/seminar - 30 points
   *Note: All senior students are required to attend the fall NYDART symposium*
f. Attendance at a half-day professional symposium/seminar - 15 points
g. Attendance at a continuing education professional lecture/seminar - 5 points
h. Completing an advisor-approved webinar– 5 points
   *Note: With certificate of completion*
i. Membership in a department-approved professional society – 5 points
   *Note: Per year of membership (such as: AARC, CoBGRTE, AAST )*
j. Special projects at the discretion of faculty advisor and the program director

Please consult with your faculty advisor or program director to verify eligibility and to provide proof of completion for a particular activity. Please note: Attending rounds while on clinical rotations is expected and does not meet the professional service requirement.

Miscellaneous Costs

A. Junior Year

1. Malpractice Insurance: Each student is required to have annual malpractice insurance and will not be allowed to attend clinical without it. The cost is approximately $35.00 per year. Students are required to purchase insurance online at www.proliability.com and submit proof to the department each year by October 1.

2. Student Lockers: Students interested in being assigned a locker should see the department administrative assistant during orientation week. Each student is responsible for purchasing their own lock. The University is not responsible for any articles left in these lockers.

3. Anatomy Lab Dress Code and Supplies: Each student is expected to abide by the rules set forth by the Anatomical Sciences department. This includes purchasing lab coats and dissecting equipment. Information regarding these requirements is found in the HAS 461 course syllabus.

4. Clinical Dress Code: Each student is responsible for purchasing the appropriate lab coat as outlined in the clinical policies section of this orientation manual.
5. **Clinical Expenses:** All students are responsible for the costs associated with transportation to and from the assigned clinical site, meals, and parking.

6. **Membership in Professional Association:** All students are expected to maintain student membership in the American Association for Respiratory Care (AARC) while in this program. Student membership costs $50 per year. Sign up for student membership on the AARC website at: [https://www.aarc.org/aarc-membership/member-services/join-renew/](https://www.aarc.org/aarc-membership/member-services/join-renew/).

Please submit proof of current membership to the department **each year** by October 1.

### B. Senior Year

1. **Malpractice Insurance:** Each student is required to have annual malpractice insurance and will not be allowed to attend clinical without it. The cost is approximately $35.00 per year. Students are required to purchase insurance online at [www.proliability.com](http://www.proliability.com) and submit proof to the department **each year** by October 1.

2. **Membership in Professional Association:** All students are expected to maintain student membership in the American Association for Respiratory Care (AARC) while in this program. Student membership costs $50 per year. Sign up for student membership on the AARC website at: [https://www.aarc.org/aarc-membership/member-services/join-renew/](https://www.aarc.org/aarc-membership/member-services/join-renew/).

Please submit proof of current membership to the department **each year** by October 1.

3. **Local Professional Symposium:** All senior students are expected to attend a local professional symposium designated by the department. Students are expected to register online using the registration information that will be provided. A substantially reduced registration fee (estimated at $55) is offered to students.

4. **HAT 494 – Seminar Readings in Respiratory Care**

**NBRC Self Assessment Exams:** In order for you to pass the HAT 494 course and graduate, a series of National Board for Respiratory Care (NBRC) self-assessment exams must be taken by each senior student. There is a mandatory fee for taking these web-based computer exams. The cost of this series of exams is estimated at $125 (subject to change without notice), payable in the Spring semester of your senior year.

**Kettering National Seminar:** So that you may be optimally prepared for the actual NBRC exams used to obtain a license to practice, special arrangements are made with Kettering National Seminar to conduct a
comprehensive review course on-site for your convenience. The Kettering National Review Seminar is not mandatory, but is strongly recommended. The estimated cost of the seminar is $275 (subject to change without notice), payable in the Spring semester of your senior year.

5. **Clinical Expenses**: All students are responsible for the costs associated with transportation to and from the assigned clinical site, meals, and parking.

C. **Books and Supplies**

All students are expected to purchase textbooks and supplies specified by each course instructor. Students may purchase new or used textbooks in the HSC bookstore, or via the internet. Books must be obtained as soon as possible at the beginning of the course to ensure success. Medical textbooks are a substantial expense for students and are estimated to cost over $1000, per year. Every effort is made to keep required textbooks to a minimum, however learning a professional medical field requires the use/purchase of these valuable resources.

The Department of Respiratory Care has placed a reference copy of required textbooks on reserve in the HSC library. These reference copies may only be used in the library and may not be checked out. Limited additional copies of required books may be available for check-out in the HSC Library.

Clinical passports are to be purchased prior to the start of each clinical rotation, according to the deadline specified by the program’s Director of Clinical Education. The fees for the clinical passports are approximately $5-15 for each clinical passport. Passports may not be duplicated.

### Minimum credits for RC and Polysomnography

94

With a minimum of 57 credits of prerequisites, total BS credits: 147 - 151
Courses

HAT 210 Introduction to Respiratory Care
An introduction to the science of respiratory care. Current trends in professional practice are discussed and students have the opportunity to observe clinical practice at a variety of affiliated health care facilities. This course is specifically designed for lower-division four year respiratory care majors. Open to west campus students.
1 credit fall or spring semester

HAT 304 Cardiopulmonary Physiology
Presents a detailed study of the physiology of human respiration and circulation. Topics include functional cardiopulmonary anatomy, embryology, ventilation, diffusion, blood flow, gas transport, acid-base states, mechanics and regulation of ventilation and basic cardiac function. Lecture.
Prerequisite: Upper division Respiratory Care or Polysomnographic Technology Program
4 credits, modules 1-2

HAT 306 Patient Evaluation
Provides concept of data base, historical information, medical terminology, chief complaint and present illness, and chest physical examination. Applies problem based learning to the study of clinical assessment skills. Lecture and laboratory.
Prerequisite: Upper division Respiratory Care or Polysomnographic Technology Program
2 credits, modules 3-4

HAT 315 Pharmacology
Covers the basic principles that govern the use of drugs in the clinical practice of Respiratory Therapists and Sleep Technologists. Develops specific knowledge for classes of drugs, important distinctions among members of each class, and both their relation to the organ systems they affect and the diseases they treat, including drug dosages and calculations.
Prerequisite: HAT 304
4 credits, mod 3-4

HAT 320 Cardiovascular Diagnosis and Treatment I
Provides the basic cardiac function, practical skills of electrocardiography, diagnosis and treatment of arrhythmias, cardiac medications and noninvasive cardiac diagnostic techniques. Examines theory and practical applications of electrocardiography, exercise stress testing, and Holter monitoring. Includes in-depth study of cardiac anatomy and electrophysiology.
Prerequisite: HAT 304
3 credits, modules 3-4

HAT 330 Pulmonary Pathology
A comprehensive study of the etiology, diagnosis, pathogenesis, pathophysiology, treatment, and prognosis of various types of pulmonary pathologies. Lecture.
Prerequisite: HAT 304
3 credits, modules 5-6
HAT 331 Respiratory Care Techniques I
Introduces the history and global significance of the practice of respiratory
care, including the beginning skills and therapies that are utilized. Major
topics include the global history that led to the creation of the profession;
the global need to provide quality respiratory care; principles of infection
prevention and control; a review of the basic physics of respiratory care;
medical gas storage, delivery and therapy; humidity and bland aerosol
administration; bedside monitoring; and lung expansion and airway clearance
therapies. Laboratory sessions will provide practical experience in the
clinical application of the therapeutic modalities discussed.
Prerequisite: Upper division Respiratory Care or Polysomnographic Technology
Program
3 credits, modules 1-2

HAT 332 Respiratory Care Techniques II
Course is second in a four part sequence. Continues the review of basic
therapeutic modalities of respiratory care. Major topics include drug aerosol
therapy, airway pharmacology, airway management, and blood gases. Emphasizes
the clinical use of cardiopulmonary rehabilitation, alternative site care,
and disease and disaster management. Lecture and laboratory.
Prerequisites: HAT 331
3 credits, modules 5-6

HAT 333 Pulmonary Diagnostic Techniques
Provides the basic technical skills of pulmonary function testing, including
an introduction to the instrumentation and physical principles of clinical
measurement; procedures for measuring the lung functions of ventilation,
mechanics, diffusion, gas distribution and exchange; and interpretation of
tests results and their relation to various pathophysiologies. Lecture and
laboratory.
Prerequisite: HAT 304
3 credits, modules 5-6

HAT 335 Medical Ethics
Reviews professional guidelines for ethical conduct and approaches to ethical
dilemmas for respiratory therapists and polysomnographic technologists.
Explores ethical issues including the distribution of resources and rationing
of services. Examines health care services in the United States and the
rights of the U.S. citizen under federal and state health care laws.
Discusses physician assisted suicide; terminal weaning; brain death;
genetics; cloning and euthanasia; advance directives; confidentiality;
informed consent; patient rights; professional conduct; and the legal issues
that impact healthcare practice in the United States.
Prerequisite: Upper division Respiratory Care or Polysomnographic Technology
Program
2 credits, modules 5-6

HAT 340 Cardiovascular Clinical
Provides clinical practice in cardiovascular technology, including both
invasive and noninvasive techniques. Students will be introduced to clinical
EKG’s, Holter scanning, stress testing, and general noninvasive cardiography.
Prerequisite: HAT 320
2 credits, module 7, 8 or 9
HAT 350 Basic Respiratory Care Clinical
An introduction to the clinical application of basic respiratory procedures such as oxygen administration, aerosol therapy, IPPB, arterial punctures and other monitoring and diagnostic procedures.
Prerequisites: HAT 331, HAT 332
4 credits module 7, 8 or 9

HAT 353 Pulmonary Diagnostics Clinical
Clinical application of spirometry, diffusion studies, blood gas analysis, flow volume loops, body plethysmography, helium dilution, nitrogen washouts, and bronchodilator responses.
Prerequisite: HAT 333
2 credits, module 7, 8 or 9

HAT 404 Neonatal Resuscitation
Provides students with knowledge and skills to perform neonatal resuscitation utilizing simulated situations for practice. Demonstrates the use of resuscitation equipment on manikins.
1 credit, module 1

HAT 410 Introduction to Clinical Education
Introduces clinical teaching to senior students. Modalities include the decision making process, teaching strategies, classroom management, instructional design, and formative and summative evaluation.
Prerequisites: Upper division Respiratory Care or Polysomnographic Technology program.
2 credits, modules 5-6

HAT 411 Clinical Teaching in Respiratory Care
An extension of HAT 410. Develops skills for senior students to conduct clinical teaching strategies under faculty supervision.
Prerequisite: HAT 410
4 credits, module 7 or 8

HAT 415 Respiratory Care Techniques IV
Introduces advanced concepts, equipment and procedures used in adult, pediatric and neonatal critical care. Provides students with decision making skills for initiation and management of advanced ventilator technology. Explores functions, clinical applications and troubleshooting of selected advanced instrumentation. Reviews equipment limitations, quality assurance, equipment maintenance and cost/benefit analysis where applicable.
Prerequisites: HAT 320, HAT 332, HAT 420, HAT 431, HAT 432
2 credits, modules 5-6

HAT 420 Cardiovascular Diagnosis and Treatment II
Examines the theory and practical applications of invasive physiologic monitoring, including metabolic and hemodynamic monitoring, Swan-Ganz catheterization, cardiac output measurement and aseptic technique. Also contains an in depth study of the etiology, pathology and treatment of advanced cardiac disease, including congenital heart disease.
Prerequisite: HAT 320
3 credits, modules 1-2
HAT 431 Respiratory Care Techniques III
Introduces the concepts of advanced airway management and mechanical ventilation used in the respiratory support of the critically ill patient. Emphasizes the physiological basis for ventilator use, indications for ventilation, parameters monitored during ventilation, and ventilator design, function and clinical application. Lecture and laboratory.
Prerequisite: HAT 332
4 credits, modules 1-2

HAT 432 Perinatal Respiratory Care
Examines anatomy, physiology, and pathology relating to management of the neonatal/pediatric patient. Includes analysis of neonatal and pediatric ventilator function in terms of mechanics and suitability in clinical application. Lecture and laboratory.
Prerequisite: HAT 332
3 credits, modules 1-2

HAT 450 Critical Care Clinical
Develops clinical skills in the management of the critical care patient. Includes specialized learning experiences in therapeutic modalities, mechanical ventilation, cardiovascular monitoring and home care ventilation.
Prerequisites: HAT 350, HAT 431
5 credits, module 3 or 4

HAT 451 Perinatal Care Clinical
An extension of HAT 432. Presents in-depth diagnostic and therapeutic concepts utilized in pediatric and neonatal intensive care as well as other areas related to the holistic care of the newborn. Emphasizes specific technical procedures that differ from the adult patient.
Prerequisite: HAT 432
4 credits, modules 3, 4, 7, or 8

HAT 470 Polysomnographic Technology I
Designed to provide entry-level personnel with both didactic and laboratory training in polysomnographic technology. Presents medical terminology, instrumentation setup and calibration, recording and monitoring techniques, documentation, professional issues and patient-technologist interactions. Lab sessions will provide practical experience in the skills required of an entry-level polysomnographic technologist. Lecture and laboratory.
Prerequisites: HAT 331
2 credits, modules 3-4

HAT 471 Polysomnographic Technology II
Provides training in more advanced aspects of polysomnographic technology. Students become familiar with the skills and knowledge needed to obtain and evaluate high quality sleep recordings. Covers all the aspects of sleep scoring and event recognition, recording and monitoring techniques, documentation, professional issues, therapeutic interventions, and patient-technologist interactions related to polysomnographic technology.
Prerequisite: HAT 470
2 credits, modules 1-2
HAT 475 Polysomnographic Technology I Clinical
Provides clinical training in the basics of polysomnographic technology. Familiarizes students with instrumentation setup and calibration, recording and monitoring techniques, documentation, professional issues, and patient-technologist interactions related to polysomnographic technology. Provides patient contact in a sleep lab. Presents opportunity to observe, perform (under supervision) and evaluate sleep studies.
Prerequisite: HAT 470
2 credits, modules 7, 8, or 9

HAT 476 Polysomnographic Technology II Clinical
Provides clinical training in advanced aspects of polysomnographic technology. Familiarizes students with practical aspects of therapeutic intervention, sleep scoring equipment troubleshooting and artifact recognition.
Prerequisites: HAT 470, HAT 471, HAT 475
2 credits, modules 3, 4, 7 or 8

HAT 482 Physiologic Monitoring Clinical
Provides a clinical experience in the hemodynamic and metabolic monitoring of patients in critical care units/labs. Covers invasive diagnostic cardiovascular procedures, including cardiac catheterization, intra-arterial pressure monitoring, and indwelling arterial catheter insertion and monitoring.
Prerequisites: HAT 420, HAT 431
2 credits, modules 3, 4, 7, or 8

HAT 487 Cardiopulmonary Rehabilitation Clinical
A clinical experience concentrating on program planning and evaluation of patients with chronic cardiopulmonary disorders. Includes discharge planning, rehabilitative services, stress testing, graded exercise and other supportive techniques.
Prerequisites: HAT 320, HAT 332
2 credits, modules 7, 8, or 9

HAT 490 Independent Study
Proposals for independent study in respiratory care must be submitted through the program director to the Committee on Research and Directed Study for approval prior to registration for this course.
Variable credits, 1-6, modules to be determined

HAT 493 Seminar/Readings in Respiratory Care
A journal club offering that is designed to assist the student in the development of a professional knowledge base. Each student is expected to review and critically analyze current research publications in the field and report those findings to the faculty and their peers in an informal discussion setting.
Prerequisites: Upper division Respiratory Care or Polysomnographic Technology program.
1 credit, modules 4 & 5
HAT 494 Respiratory Care Board Review
A practical discussion and seminar course that prepares the student to take the national certification and registry examinations. Each student will take self-assessment exams that analyze their technical and clinical skills in the areas of data collection and interpretation, as well as decision making skills.
Prerequisites: HAT 420, HAT 431, HAT 432
1 credit, module 4

HAS 332 Management Concepts for Health Professionals
Addresses the operations within healthcare institutions from macro to micro levels of management. Analyzes the philosophy and significant occurrences affecting healthcare operations in the past, present and future. The divisions within healthcare operations (clinical, support and informational services, nursing, finance and ambulatory care) will address the following aspects of management: financial forecasting and monitoring, staffing, employee productivity and morale, customer service, cost containment, decision making and total quality management. Emphasizes hospital operations and presents nursing home and community healthcare center operations. Open to CLS and RC students only.
Prerequisite: Admission to Undergraduate Health Sciences Center program.
1 credit, lecture

HAS 351 Research Literacy/Research Design
Prepares students to perform a literature search in their respective disciplines to find scientific and health articles and books in the Health Sciences Center Library. Presents research terminology, methods, and design. Provides basic skills to enhance interpretation, evaluation and analysis of research articles, including the hypothesis, literature review, design, methodology, and data analysis.
Prerequisite: Admission to Undergraduate Health Sciences Center program.
1 credit, lecture

HAS 363 Computer Literacy for Health Professionals
Surveys the uses of computers for health practitioners. Offers practical experience in literature database searching and use of applications software.
Prerequisite: Admission to Undergraduate Health Sciences Center program.
1 credit, lecture

HAS 490 Research Tutorial
An original research project is conducted.
Prerequisite: Admission to Undergraduate Health Sciences Center program.
Prerequisite: HAS 351
2 credits, tutorial

HBA 461: Regional Human Anatomy
An overview of the gross anatomy of the human body. Dissection of the entire human body. Includes neuroanatomy. Prerequisite: Permission of instructor for non-Health Sciences students.
Class Notes: For students enrolled in Stony Brook University's RC program only.
Prerequisite: Admission to Undergraduate Health Sciences Center program
5 credits
**HBP 310 Pathology**
A study of the basic mechanisms of disease and the pathophysiology of the important human illnesses. Primarily for Health Sciences Center students; others admitted with special permission.  
*Prerequisite: Admission to Undergraduate Health Sciences Center program.*  
3 credits

**HBY 350 Physiology**
The normal functioning of human tissues and organs and their regulation by the nervous and endocrine systems. Special emphasis is given to physiological control systems and the preservation of the constancy of the internal environment. Lectures, conferences, demonstrations. Only for Health Sciences Center students. Only Fall.  
*Prerequisite: Admission to Undergraduate Health Sciences Center program or admission to Pharmacology major or permission of instructor.*  
4 credits
**Faculty/Staff Policies**

**HIPPA Training and HSC Workforce Confidentiality Agreement**

All Health Sciences Center faculty, staff, and students must complete the required HIPAA training and HSC Workforce Confidentiality Agreement. All information concerning patients is confidential and must not be discussed with anyone who is not authorized or does not require the information for care of that patient. HIPPA training is provided at SHTM orientation and each student must satisfactorily complete the required on-line exam to be in compliance with this requirement. Faculty and staff receive HIPPA training during orientation to the school. Faculty, staff, and students must also review and complete an HSC Workforce Confidentiality Agreement.
Stony Brook Organized Health Care Arrangement  
version received  
June 2010

Workforce Confidentiality Agreement

Important: Please read all sections. If you have any questions, please seek clarification before signing.

1. Confidentiality of Patient Information:
   a) Services provided to patients are private and confidential;
   b) Patients provide personal information with the expectation that it will be kept confidential and only be used by authorized persons as necessary;
   c) All personally identifiable information provided by patients or regarding medical services provided to patients, in whatever form such information exists, including oral, written, printed, photographic and electronic (collectively the “Confidentiality Information”) is strictly confidential and is protected by federal and state laws and regulations that prohibit its unauthorized use or disclosure; and
   d) In my course of employment / affiliation with Stony Brook University Health Sciences Center (HSC), I may be given access to certain Confidential Information.

2. Disclosure, Use and Access
   I agree that, except as authorized in connection with my assigned duties, I will not at any time use, access or disclose any Confidential Information to any person (including, but not limited to co-workers, friends, and family members). I understand that this obligation remains in full force during the entire term of my employment/affiliation and continues in effect after such employment/affiliation terminates.

3. Confidentiality Policy
   I agree that I will comply with confidentiality policies that apply to me as a result of my employment/affiliation.

4. Return of Confidential Information
   Upon termination of my employment/affiliation for any reason, or at any other time upon request, I agree to promptly return to Stony Brook University HSC or my employer any copies of Confidential Information then in my possession or control (including all printed and electronic copies), unless retention is specifically required by law or regulation.

5. Periodic Certification
   I understand that I will be required to periodically certify that I have complied in all respects with this Agreement, and I agree to so certify upon request.

6. Remedies
   I understand and acknowledge that:
   a) The restrictions and obligations I have accepted under this Agreement are reasonable and necessary in order to protect the interests of patients, Stony Brook University HSC and my employer (if different than Stony Brook University HSC); and
   b) My failure to comply with this Agreement in any respect could cause irreparable harm to patients, Stony Brook University HSC and my employer.

I therefore understand that Stony Brook University HSC or my employer may prevent me from violating this Agreement by any legal means available, in addition to disciplinary measures which may result in sanctions in accordance with applicable policies and collective bargaining agreements.

Important Stony Brook University Policies

Stony Brook University Policy Manual
Current Stony Brook University policies can be located at the following website:
http://www.stonybrook.edu/vpadmin/policy/policies.shtml

University Policy Manual
For information regarding policies, activities and traditions of the State University at Stony Brook.
http://www.sunysb.edu/policy/

Instructional Responsibilities
The University's statement of Minimal Instructional Responsibilities was updated by the University Senate's Undergraduate Council in Fall 2008. Please review it carefully for changes in protocols that you may have established. Also listed are the Minimal Undergraduate Student Responsibilities. You may wish to copy these for your classes or direct students to the website. Both statements may be found in the Academic Policies and Regulations section of the on-line Undergraduate Bulletin, under the section entitled Important Policies and Expectations.
http://sb.cc.stonybrook.edu/bulletin/current/policiesandregulations/index.php

Student Participation in University-Sponsored Activities
On occasion students may be forced to miss class as a result of their participation in an event or activity sponsored by the University. Please see page 91 of the on-line Undergraduate Bulletin for policy regulating the accommodations that should be made for these students.
http://sb.cc.stonybrook.edu/bulletin/current/policiesandregulations/index.php

Withdrawals
The academic calendar, available in the Undergraduate Class Schedule and the Registrar's website, lists various dates that students must follow. Permission for a student to withdraw from a course after the deadline may be granted only by the Arts and Sciences Committee on Academic Standing and Appeals or the Engineering and Applied Sciences Committee on Academic Standing. The same is true of withdrawals that will result in an underload. A note from the instructor is not sufficient to secure a withdrawal from a course without regard to deadlines and underloads. (SHTM forms and procedures supersede west campus and should be submitted to the SHTM Dean's office.)

Exceptions to University and College Graduation Requirements

Neither individual faculty members nor departments may grant waivers or substitutions for general education requirements or any other College-wide or University-wide requirements. Students should be directed to Undergraduate Academic Affairs or the CEAS Undergraduate Student Office for information about the process for requesting an exception (Relevant for Health Science program).
Family Education Rights and Privacy Act (FERPA)

Often times issues involving students arise that require knowledge about access to student records and other information. Please refer to the following campus website for guidance with laws regulating confidentiality of student records and dissemination of other student personal and academic information:

http://ws.cc.sunysb.edu/registrar/federalrights.shtml

Required Statements to Appear in all Teaching Syllabi

The University Senate has authorized that the following required statements appear in all teaching syllabi on the Stony Brook Campus.

http://sb.cc.stonybrook.edu/bulletin/current/policiesandregulations/policies_expectations/min_instructional_student RESP.php

Americans with Disabilities Act:
If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Disability Support Services, 128 ECC Building (631) 632-6748. They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential. Students who require assistance during emergency evacuation are encouraged to discuss their needs with their professors and Disability Support Services.

http://sb.cc.stonybrook.edu/bulletin/current/policiesandregulations/policies_expectations/min_instructional_student RESP.php

Academic Integrity:
Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty are required to report any suspected instances of academic dishonesty to the Academic Judiciary. Faculty in the Health Sciences Center (School of Health Technology & Management, Nursing, Social Welfare, Dental Medicine) and School of Medicine are required to follow their school-specific procedures. For more comprehensive information on academic integrity, including categories of academic dishonesty, please refer to the academic judiciary website at

http://www.stonybrook.edu/uaa/academicjudiciary/

Critical Incident Management:
Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Judicial Affairs any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students' ability to learn. Faculty in the HSC Schools and the School of Medicine are required to follow their school-specific procedures.
Religious Absences  
*New York State Education Law, Section 221-a*

224-a. Students unable because of religious beliefs to register or attend classes on certain days.

1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he or she is unable, because of his or her religious beliefs, to register or attend classes or to participate in any examination, study, or work requirements on a particular day or days.

2. Any student in an institution of higher education who is unable, because of his or her religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.

3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to make up any examination, study, or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.

4. If registration, classes, examinations, study, or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study, or work requirements, or opportunity to register shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study, or work requirements, or registration held on other days.

5. In effectuating the provisions of this section it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.

6. Any student who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his or her rights under this section.

6a. It shall be the responsibility of the administrative officials of each institution of higher education to give written notice to students of their rights under this section, informing them that each student who is absent from school, because of his or her religious beliefs, must be given an equivalent opportunity to register for classes or make up any examination, study, or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to such student equivalent opportunity.
7. As used in this section, the term "institution of higher education" shall mean any institution of higher education, recognized and approved by the Regents of the University of the State of New York, which provides a course of study leading to the granting of a postsecondary degree or diploma. Such term shall not include any institution which is operated, supervised, or controlled by a church or by a religious or denominational organization whose educational programs are principally designed for the purpose of training ministers or other religious functionaries or for the purpose of propagating religious doctrines. As used in this section, the term "religious belief" shall mean beliefs associated with any corporation organized and operated exclusively for religious purposes, which is not disqualified for tax exemption under section 501 of the United States code.

Confidentiality of Student Data

As a matter of law, the University must comply with state and federal requirements mandating the privacy of student data, or risk the loss of federal funds. All members of the campus community who interact with students in any capacity and have access to student records must adhere to these policies by following standard practices for handling paper and electronic student records. As required by law, notice of this policy and of students' rights there under is here given to the campus community and reproduced on the Registrar's website.

Applicable regulations include:
The Family Educational Rights and Privacy Act (FERPA)  
The USA Patriot Act (amends FERPA)  
NY State law (regulates use of students' social security and identification numbers)  
University Policy 507 (Student Access to Academic Records)

Highlights of the privacy laws:

The University is authorized to provide access to student records to staff with a legitimate educational interest in such access without the student's written consent. Such persons include those with responsibilities for campus academic, administrative or service functions, whose normal and customary job duties require ongoing or periodic access to student records. This determination is made on a case-by-case basis when a request for student records access is submitted to the Registrar's Office.

With the limited exception of certain data defined as "Directory Information", (see below), student information must not be transmitted, shared or discussed by any University employee to anyone outside the University (including parents or spouses) without an express written release from the student or a lawfully issued subpoena or court order. This prohibition includes the issuance of recommendation letters and academic transcripts. Further, faculty, instructors, and graduate students must understand that they should not discuss student participation in a class with non-University third parties (parent, partner, prospective employer) without prior consent from the student. Students may complete a form authorizing the Registrar's Office to permit non-University individuals to view their academic record. Accordingly, before engaging in third party discussions, please contact the Registrar.
Directory information is public information and may be released without prior student consent. This data is limited to the following information: name, program of study, enrollment status, local address, degrees and awards received, participation in activities or sports, local telephone, dates of attendance, and date of graduation.

Be aware that students may complete a request to the Registrar's Office to suppress even directory information from being divulged. Accordingly, before revealing directory information, please contact the Registrar.

New York State law specifically bars the display of a student's social security or identification number in any public posting of grades, on class rosters or other lists provided to teachers, on student identification cards, and in student directories or similar listings. Accordingly, faculty and staff may not use student social security or University identification numbers - or any portion thereof - to post grades or provide other publicly accessible information*.

*This includes leaving exams, test, quizzes, etc. in a publicly accessible place for student's to retrieve.

Only the Office of University Counsel coordinates responses to subpoenas, court orders or law enforcement requests for student records. Employees receiving any such requests MUST contact University Counsel for immediate action.

For more information:

1. The FERPA regulations are posted in the US Department of Education website:  
   www.ed.gov/offices/OM/fpco/ferpa

2. Amendments to FERPA are available at:  

3. Copies of this policy are available at the Registrar's Office, in the Undergraduate Bulletin and on the Registrar's website:  
   http://www.sunysb.edu/registrar/federalrights.shtml

4. University Policy 507 on Student Access to Academic Records:  

   **Dead Link**
   Questions about the interpretation of the FERPA guidelines should be referred to the University Registrar, 276 Administration, 2-6175.
