Master’s of Science Program in Speech-Language Pathology

What is a Speech-Language Pathologist (SLP)?

Speech-Language Pathologists assess and treat infants, children, and adults with speech, language, cognitive and/or swallowing disorders.

Who do they work with?

The following are examples of some diseases/disorders which can result in speech, language, cognitive and/or swallowing disorders:

*Stuttering, Cluttering, Aphasia, Dementia, Alzheimer’s Disease, Parkinson’s Disease, Huntington’s Disease, ALS, MS, Stroke, Traumatic Brain Injury, Cleft Palate/Craniofacial Syndromes, Deafness, Hearing Impairment, Autism, Apraxia, Dysarthria, and Head and Neck Cancer*

Where do they work?

SLPs work in many different settings including schools, clinics, private practices, hospitals, skilled nursing facilities, rehabilitation centers, public health agencies, universities, state and federal government agencies, health departments, and research laboratories.

**Undergraduate prerequisite (12 credits) coursework in Speech-Language Pathology**

The School of Health Technology and Management is offering speech-language pathology (SLP) pre-requisite courses. These courses are designed for students who are interested in applying for admission to graduate programs in SLP.

- HAS 310 Applied Phonetics of English
- HAS 311 Speech and Language Development
- HAS 312 Anatomy and Physiology of the Speech, Language and Hearing Mechanism
- HAS 313 Speech Science

<tbody>
<tr>
<td>Speech and Language Development</td>
<td>This online course will provide students with knowledge about a child’s speech and language development from birth through adolescence. Topics include theories of speech and language acquisition, neurological basis of speech and language development including the motor and perceptual basis, speech and language development during infancy, preschool, school-age and adolescence, speech and language sampling analysis, and the importance of cultural linguistic diversity and environmental influences on development. This course or the equivalent (in another program) is a required prerequisite course for admission into the graduate program in Speech-Language Pathology at Stony Brook University.</td>
<td>3</td>
</tr>
<tr>
<td>Speech Science</td>
<td>This online course will introduce students to acoustics, psychoacoustics, acoustical and articulatory properties of speech production, theories and models of speech perception and apply theoretical information with current technology and research in the field. Instrumentation used to measure respiratory, laryngeal, velopharyngeal and pharyngeal components will be discussed. Applied Phonetics of English or an equivalent course is a prerequisite for this course. This course or the equivalent (in another program) is a required prerequisite course for admission into the graduate program in Speech-Language Pathology at Stony Brook University.</td>
<td>3</td>
</tr>
<tr>
<td>Applied Phonetics of English</td>
<td>This online course will provide a foundation for studying the speech sounds used in the production of American English. There will be discussion about the branches of phonetics,</td>

TOTAL CREDITS = 12
Non-matriculate students/prerequisite courses in SLP

**Prerequisite Course Content Areas Related to SLP Certification Standards**

All students are required to take courses in statistics as well as the biological, physical, and social/behavioral sciences (Standard IV-A) prior to admission into the Master's program in Speech-Language Pathology. The Council for Clinical Certification in Audiology and Speech-Language Pathology (CFCC) announced changes to the SLP certification standards, including a modification to Standard IV-A, in which the physical science requirement must be met by completing coursework in the areas of either chemistry or physics. This change pertains only to applicants who apply under the 2020 SLP standards. Please see pre-requisite content course areas related to certification - https://www.asha.org/Certification/Course-Content-Areas-for-SLP-Standards/.

**Courses offered at Stony Brook University that fulfills these Content Area Requirements**

Some course suggestions for content areas are listed below. Students are encouraged to consult with Dr. Renee Fabus prior to registering for any course to ensure that it meets content requirements.

How to enroll in prerequisite courses in the Department of Speech-Language Pathology?

**SBU Students:** Register via Solar - https://it.stonybrook.edu/services/solar.

**Non-SBU Students:** Apply through the School of Health Technology and Management (SHTM) for non-matriculated status. Complete the application for non-matriculation and submit it to Ms. Nirla Pierre (see contact information below).

For more information or additional questions contact:

Nirla Pierre, MHA, MS
Staff Assistant for Speech-Language Pathology Department
Email: nirla.pierre@stonybrook.edu
Phone: 631-632-5138

Renee Fabus, Ph.D, CCC-SLP, TSHH
Chair of the Speech-Language Pathology Department
Email: Renee.fabus@stonybrook.edu

For additional information about the graduate program in Speech-Language Pathology, please review our website: https://healthtechnology.stonybrookmedicine.edu/programs/speech-lang

Non-matriculate students
/prerequisite courses in SLP

List any professional licenses/certifications/registration you hold and their numbers. Briefly describe any health related work experience you have:

Explain briefly why you wish to enroll as a part-time non-matriculated student, and indicate which courses you wish to take.

The above statements are true to the best of my knowledge and belief. I understand that approval of this application does NOT constitute admission to degree candidacy in any unit of Health Sciences or Stony Brook University; that a separate application for admission as a degree candidate will be required should I seek matriculation and that such application will be considered in equal competition with other candidates for such admission.
